Pick up: Content check & 3 Articles

Today you will:

- Diagnostic Content check on Human Impacts
- Invasive Species
- [Fire in Florida Ecosystems](#)
- How does fire affect ecosystems?

Homework/Planner: [Quiz Friday!!!](#)

[Study for DIAS, Wed, 4/18!!!!](#) Turn in work on due date-check board.

The Threat of Invasive Species to Biodiversity

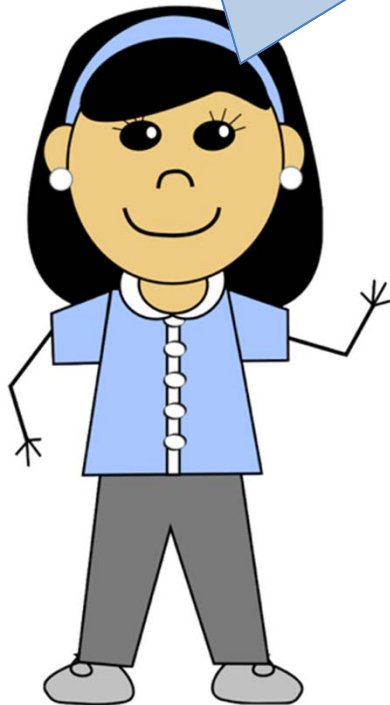

Non native species is a plant or animal that has migrated to an area where they are not native.

Lamprey

Yellow Star Thistle

Humans often accidentally or intentionally: transport organisms to new areas. When introduced into a new habitat, these organisms can become invasive species.

Zebra Mussel
