Pick Up: ■ None

Today ■ Design & implement an experiment on Brine Shrimp
you
will:

- Watch [How Deep is the Ocean?](#)
- Turn in any signed papers or assignments into blue bin under screen.

Focus on the learning, not the grade!

Marine Lab Report

- Purpose: What affect does salinity have on hatching brine shrimp eggs?
- Materials:
 - 50mL each of sea, brackish, and fresh waters; 0.8mg brine shrimp eggs(total); cups with plastic wrap
- Complete the Lab Report worksheet. Determine an appropriate procedure to enable you to conduct the experiment. Create a data chart and graph to record data.
